Milestones																																								
Alum System Operational - 31 Oct 19																																								
Substantial Completion - 31 Jan 20																																								
Final Completion - 1 Mar 20																																								
Mobilize		x	x	x	x																																			
Alum System																																								
Construct Manhole																																								
Install Pipeline from MH to PS																																								
Sitework																																								
Concrete work																																								
Install Piping and Pumps																																								
Cure Concrete (30 days)																																								
Apply Coating																																								
Install Tank																																								
Install Piping at Tank																																								
Install Electrical Conduits, Panels, and Wire																																								
Startup																																								
Paving																																								
Influent Pump Station Modifications																																								
Construct West Openings																																								
Install Temp Ductwork																																								
Construct East Openings																																								
Install New Ductwork																																								
Paving																																								
Equipment Modifications (Parkson)																																								
Headworks Piping																																								
Fabricate Enclosure and Waterheater																																								
Install FRP Enclosure																																								
Install Waterheater																																								
Install New Piping - UW, TW, CA																																								
Install Electrical Conduits, Panels, and Wire																																								
Biofilter Odor Control																																								
Install Temp Ductwork																																								
Remove Existing Media																																								
Smoke Test Underground Ductwork																																								
Install New Media																																								
Remove Temp Ductwork																																								
Aeration Basins																																								
Fabricate Valves																																								
Install New Valves and Operators																																								
First Basin																																								
Second Basin																																								
Third Basin																																								
Fourth Basin																																								
Install Misc Piping																																								
Effluent Pump Station																																								
Fabricate Piping																																								
Install New Piping																																								
Solids Handling Building																																								
Fabricate Booster Pumps																																								
Install Booster Pumps
