## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Ironhouse Sanitary District  
Oakley, California

### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Ironhouse Sanitary District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Ironhouse Sanitary District, as of June 30, 2020, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-8, schedules related to the District's net pension liability on pages 34 - 35, and the schedules related to the District's net OPEB liability on pages 36 - 37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2020, on our consideration of the Ironhouse Sanitary District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Ironhouse Sanitary District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Ironhouse Sanitary District's internal control over financial reporting and compliance.

A handwritten signature in blue ink, appearing to read "M. L. H. N. CPA", is positioned above the typed name and date.

Sacramento, California  
November 17, 2020

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The financial statements for the fiscal year ending June 30, 2020 are being issued in the format prescribed by the provisions of Government Accounting Standards Board Statement 34 (GASB 34), which requires the District to provide this overview of its financial statements for the fiscal year. Please read it in conjunction with the Basic Financial Statements.

The Ironhouse Sanitary District (the District) provides wastewater collection, treatment and disposal services and recycled water to individuals and businesses within the City of Oakley, Bethel Island, and from other unincorporated areas within the District's service boundary. The District's primary source of funding is from service charges, service connection fees and capacity fees from users of the services provided by the District.

The following management discussion and analysis (MD&A) will discuss the results of the District's operations. Key financial information for the current fiscal year will be compared with those of the prior year.

### A. District Financial Highlights

The assets of the District exceeded its liabilities at June 30, 2020 by \$81,398,932 (net position) compared to \$74,540,416 at June 30, 2019. For the fiscal year 2020, net position increased by \$6,858,516 as compared to fiscal year 2019 increase in net position of \$2,671,069.

The District's cash, cash equivalents, and investments at June 30, 2020 were \$28,431,583 representing an increase of \$716,559 from the June 30, 2019 balance of \$27,715,024. The increase reflects cash inflow from operations of \$6,812,422, cash outflow for debt service of \$2,937,701, and cash outflow for the purchase of capital assets of \$3,158,162.

Total District liabilities decreased by \$2,697,308 during fiscal year 2020 from \$44,695,632 at June 30, 2019 to \$41,998,324 at June 30, 2020. The primary reason for the decrease represents the annual principal debt service reduction of long-term debt in the amount of \$2,937,701.

As of the close of the current fiscal year, the District's Proprietary Fund reported Unrestricted Undesignated Net Position of \$5,548,264 compared to \$5,255,540 for the prior fiscal year, and Unrestricted Designated Reserves of \$11,789,098 compared to \$12,357,774 for the prior fiscal year. Restricted Net Position at June 30, 2020 is \$7,815,822 compared to \$7,270,815 at June 30, 2019.

The decrease in Unrestricted Designated Net Position primarily reflects the transfer of \$2,588,793 from Unrestricted Undesignated Net Position to the Capital Expenditure Reserve in accordance with reserve policies and offset by purchases of capital assets of \$3,158,162 from the Capital Expenditure Reserve.

The increase in Restricted Net Position of \$545,007 reflects capacity fees received from developers in the amount of \$1,839,709 offset by the developers' annual share of debt service in the amount of \$1,366,030. Additionally, \$71,328 of interest income was allocated to Restricted Net Position. Restricted capacity related fees are held for the purpose of developers' annual share of debt service, plant capacity expansion, and trunk-line capacity expansion.

Deferred Outflow of Resources related to pension and other post-retirement benefits decreased by \$140,871 during the fiscal year, whereas Deferred Inflow of Resources for pension and post-retirement benefits increased by \$109,397.

## **A. District Financial Highlights (continued)**

The primary revenue resources of the District are service charges, service connection fees and capacity fees from users of the services provided by the District which totaled \$12,866,382 in the fiscal year 2020, compared to \$12,071,888 in fiscal year 2019. The 6.6% increase was primarily the result of 74 additional new connections into the system in fiscal year 2020 as compared to fiscal year 2019. The increase in new connections resulted in a significant increase in service connection and capacity related fees. There was no increase in the service fee per equivalent dwelling units (EDUs) during the year.

The District had Operating Revenues of \$13,028,484 for the fiscal year 2020 versus \$12,328,245 for fiscal 2019 (5.7% increase). Operating Expenses of \$12,472,258 for fiscal year 2020 versus \$11,523,303 for fiscal year 2019 (8.2% increase).

The District had Non-Operating Revenues (net of non-operating expenses) of \$6,800,134 for fiscal year 2020 versus \$2,402,267 for fiscal 2019 (183.1% increase). The primary reason for the increase is the result of increase in captial contribution from developers of sewer system infrastructure of \$4,950,414 in fiscal year 2020 as compared to \$272,180 in fiscal year 2019.

## **B. Using the Annual Report**

### Management Discussion and Analysis

Management's Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. The financial statements and notes to the financial statements included in this report were prepared in accordance with GAAP applicable to governmental entities in the United States of America for Proprietary Fund types.

### Government-Wide Financial Statements

The government wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. They consist of Comparative Statements of Net Position and Comparative Statement of Revenues, Expenses and Changes in Net Position.

The Comparative Statements of Net Position present information on all the District's assets and liabilities with the difference between the two reported as net position. Increases or decreases in net position will serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Comparative Statements of Revenues, Expenses and Changes in Net Position present information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., depreciation and earned but unused vacation leave). In other cases, cash received in the current year will not be reflected as revenues until the event for which the revenues are earned has occurred (e.g., unearned revenue).

The government wide financial statements report on the District's activities. As previously stated, the activities are primarily supported by service charges, service connection fees and capacity fees. The District's function is to provide wastewater collection, treatment and disposal services, and recycled water to users within the District's area of operations. The financial statements can be found after this Management Discussion and Analysis.

### Notes to Financial Statements

The Notes to Financial Statements provide additional information that is essential to a full understanding of the data provided in the general purpose financial statements. The Notes to Financial Statements can be found in this report after the basic financial statements.

## **C. Capital Assets and Debt Administration**

### Capital Assets:

As of June 30, 2020, the District's investment in Capital Assets for its Proprietary Fund was \$88,511,091 (net of accumulated depreciation). This investment in Capital Assets includes land, water recycling facility, collection system, buildings, vehicles, furniture and equipment. There was \$3,158,162 of major capital assets purchased during the fiscal year.

Additional information on the District's Capital Assets can be found in Note 4 to the Financial Statements included in this report.

### Debt Administration:

The District began construction in April 2009 on a new 4.3 MGD water recycling facility. The facility went into service in July 2011. The District entered into a project funding agreement with the California State Water Resources Control Board under their Clean Water State Revolving Fund Program. The District borrowed \$58,754,010 for construction of the water recycling facility. Repayment of the loan is paid in twenty annual installments of \$2,937,701 that commenced October 2012. As of June 30, 2020, the outstanding balance of the loan is \$35,252,406. The loan incurred no interest; however, to borrow funds, the District was required to provide 16.67% of the total loan amount. This portion of the loan is reported as prepaid interest and is amortized at an effective interest rate of 1.8%.

Additional information on the District's Debt can be found in Note 5 to the Financial Statements included in this report.

#### **D. The Economic Outlook**

The District is dependent upon user service, connection and capacity fees for the funding of operations and capital improvements. Increases in service fees can only be implemented upon completing the State of California Proposition 218 process. During the fiscal year, the District completed the Proposition 218 process which provides for a service fee increase of 9%, 5%, 5%, 0% and 0% over the next five years beginning in fiscal year 20-21. The five-year rate increase plan outlined in the Proposition 218 notice was developed and based on a third-party service fee rate study. Subsequent to the year ended June 30, 2020, the District board of directors approved the five-year rate plan.

As outlined in the Proposition 218 notice, the primary purpose of the five-year rate plan is to provide additional service fees for an estimated \$25.4 million of capital improvements over the next five years of the District's sewer system and water recycling facility infrastructure. The estimated capital improvements are partially based on a third-party comprehensive reliability study of its water recycling facility which includes recommendations for various operating improvements of the facility. The study was conducted by an engineering firm specializing in facility reliability studies.

#### **E. Requests for information**

This financial report is designed to provide citizens, taxpayers, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to the District's Financial Officer at Ironhouse Sanitary District, 450 Walnut Meadows Drive, Oakley, CA, 94561.

The accompanying notes are an integral part of the financial statements.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Reporting Entity**

Ironhouse Sanitary District (The District) provides sewage collection, treatment and disposal services, and recycled water to the City of Oakley and the unincorporated area of Bethel Island, California. There are five members on the District's Board of Directors. These members are elected to four year terms.

Ironhouse Sanitary District, formally known as the Oakley Sanitary District, was formed on August 27, 1945 under the provisions of sections 6400-6907.5 of the California Health and Safety Code. On February 1, 1992 the District annexed the territory of the former Contra Costa County Sanitation District Number 15 and received title to all of the assets of the Contra Costa County Sanitation District Number 15 and the Oakley-Bethel Island Wastewater Management District. The District also assumed all liabilities of the two entities.

**Basis of Presentation**

The basic financial statements of the Ironhouse Sanitary District have been prepared in conformity with generally accepted accounting principles as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

**Basis of Accounting**

The Ironhouse Sanitary District follows the enterprise method of accounting practices and reporting methods approved for waste disposal districts. An Enterprise type fund is a proprietary type fund used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses excluding depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Revenues and expenses are recognized on the accrual basis. Revenues are recognized in the accounting period in which they are earned and become measurable; expenses are recognized in the period incurred.

Operating revenues are those revenues that are generated from the primary operations of the District. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**Budgetary Reporting**

The District prepares an operations and maintenance budget at the beginning of each year for the following fiscal year. Capital budgets are adopted on a project basis. Formal budgetary integration is employed as a management control device.

**Cash and Cash Equivalents**

For the purpose of the statement of cash flows, the District defines cash and cash equivalents to include all cash and temporary investments with original maturities of three months or less from the date of acquisition.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Fair Value Inputs, Methodologies and Hierarchy**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the assets. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

**Level 1** - Unadjusted price quotations in active markets/exchanges for identical assets or liabilities that are accessible to the District.

**Level 2** - Other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market-corroborated inputs.)

**Level 3** - Unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the District's own assumptions used in determining the fair value of investments).

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

**Supply Inventory**

Inventory is valued at average cost which approximates market. Inventory consists of expendable supplies held for future consumption or capitalization. The cost is recorded as an expense as inventory items are consumed.

**Prepaid Expenses**

Certain payments for health insurance, maintenance, and liability insurance reflect costs applicable to future accounting periods and are recorded as prepaid expenses.

**Capital Assets**

Purchased or constructed assets are recorded at actual cost or estimated historical cost if actual cost is unavailable. Interest expense incurred during the development period is capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Donated capital assets are recorded at acquisition value at the date of donation. The District established a threshold of \$5,000 for capitalization of depreciable assets. Depreciation has been provided using the straight-line method of accounting over the following estimated useful lives of the assets:

Plant and conveyance system - 40 years

Vehicles, furniture and equipment - 5 to 20 years

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Cattle Operations**

During the fiscal year ended June 30, 1997, the District acquired several herds of cattle. These cattle were purchased primarily to maintain the grass levels of the Jersey Island land owned by the District. It is the District's intent to continue raising and selling these cattle. In accordance with Accounting Standards Codification 905-10 *Accounting by Agricultural Producers and Agricultural Cooperatives*, the cost of purchasing and raising these cattle is capitalized. Mature cattle are depreciated over their useful lives which is considered to be 8 years. Immature cattle are capitalized and are charged to cattle operations expense when sold.

**Compensated Absences**

Compensated absences represent the vested portion of accumulated vacation leave. The liability for accumulated leave includes all salary - related payments that are directly and incrementally connected with leave payments to employees.

**Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Other Postemployment Benefits (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and assets information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2019
Measurement Date	June 30, 2019
Measurement Period	July 1, 2018 - June 30, 2019

**Use of Estimates**

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

**Deferred Outflows and Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

**Net Position**

Net position represents the residual interest in the District's assets and deferred outflows after liabilities and deferred inflows are deducted. Net position is presented in three broad components: net investment in capital assets; restricted; and unrestricted. Net investment in capital assets includes capital assets, net of accumulated depreciation, and outstanding principal balances of debt and related deferred outflows and inflows attributable to the acquisition, construction or improvement of those assets. Net position is restricted when constraints are imposed by third parties or by law through constitutional provisions or enabling legislation. All other net position is unrestricted. Operating losses outside of depreciation are funded by operating and capital reserves.

**Subsequent Events**

Subsequent events have been evaluated through November 17, 2020, which is the date the financial statements were issued.

**Implementation of Government Accounting Standards Board Statements**

Effective July 1, 2019, the District implemented the following accounting and financial reporting standards:

Government Accounting Standards Board Statement No. 88

In March 2018, GASB issued Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*. The objective of this statement is to clarify which liabilities governments should include in their note disclosures related to debt. GASB is requiring debt borrowings and direct placements to be presented separately because they may expose a government to risks that are different from, or in addition to, risks related to other types of debt. The new standard also requires the disclosure of additional essential debt-related information for all types of debt, including amounts of unused lines of credit and assets pledged as collateral for debt. Also required to be disclosed are terms specified in debt agreements related to: (1) significant events of default with finance-related consequences, (2) significant termination events with finance-related consequences, (3) significant subjective acceleration clauses. Application of this statement has had no material impact on District's financial statements for the fiscal year ending June 30, 2020.

**Future Government Accounting Standards Board Statements**

These statements are not effective until July 1, 2020 or later and may be applicable for the District. However, the District has not determined the effects, if any, on the financial statements.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Government Accounting Standards Board Statement No. 87

In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. Application of this statement is effective for the District's fiscal year ending June 30, 2022. The District has not determined what impact, if any, this pronouncement will have on the financial statements.

Government Accounting Standards Board Statement No. 89

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. This statement requires interest costs incurred before the end of a construction period to be recorded as an expenditure in the applicable period. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The District has not determined what impact, if any, this pronouncement will have on the financial statements. Application of this statement is effective for the District's fiscal year ending June 30, 2022.

Government Accounting Standards Board Statement No. 90

In August 2018, GASB issued Statement No. 90, *Majority Equity Interests*. The purpose of this statement is to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The new standard clarifies the differences between a majority equity interests reported as an investment and majority equity interest reported as a component unit of the governmental entity. The District has not determined what impact, if any, this pronouncement will have on the financial statements. Application of this statement is effective for the District's fiscal year ending June 30, 2021.

Government Accounting Standards Board Statement No. 91

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The purpose of this statement is to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The District has not determined what impact, if any, this pronouncement will have on the financial statements. Application of this statement is effective for the District's fiscal year ending June 30, 2023.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 2: CASH AND INVESTMENTS**

Cash and investments are reported in the accompanying financial statements as follows:

Cash and investments	\$ 20,615,761
Restricted cash and investments	<u>7,815,822</u>
<b>Total</b>	<b><u>\$ 28,431,583</u></b>

The restricted cash balance is restricted for the current portion of the state revolving fund loan, plant expansion and trunkline capacity. The restricted cash is also presented as restricted net position in the statement of net position.

The components of the District's cash and cash equivalents at June 30, 2020 are as follows:

Cash on hand	\$ 225
Deposits with financial institutions	<u>1,679,435</u>
<b>Total cash</b>	<b><u>1,679,660</u></b>
Local Agency Investment Fund	14,312,956
CalTRUST Investment Fund	3,572,800
Certificates of Deposit	5,498,737
Corporate Bonds	2,033,450
Money Market Mutual Funds	<u>1,333,980</u>
<b>Total investments</b>	<b><u>26,751,923</u></b>
<b>Total cash and investments</b>	<b><u>\$ 28,431,583</u></b>

**Authorized Investments of the District**

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive) that addresses interest rate risk, credit risk and concentration of credit risk.

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
U.S. Treasury Obligation	5 years	None	None
Banker's Acceptances	180 days	10%	5%
Commercial Paper	270 days	25%	5%
Certificates of Deposit	5 years	30%	None
Bank Deposits	5 years	None	None
Medium-Term Corporate Notes	5 years	30%	None
Money Market Mutual Funds	N/A	20%	10%
CD Placement Services	5 years	30%	None
Local Agency Investment Fund (LAIF)	N/A	None	None
County Pooled Investment Funds	N/A	None	None
Joint Powers Authority Funds (CalTRUST)	N/A	None	None
U.S. Agency Obligations	5 years	None	None

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 2: CASH AND INVESTMENTS (continued)**

**Disclosures Relating to Interest Rate Risk**

Interest rate risk is the risk in the market rate changes that could adversely affect the fair values of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for District operations.

Information about the sensitivity of the fair values of the District's investments (including investments held by bond trustee) to market rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity as of June 30, 2020:

	Remaining Maturity		
	12 months or less	1-5 years	Fair Value
Certificates of Deposit	\$ 4,489,766	\$ 1,008,971	\$ 5,498,737
Corporate Bonds	2,033,450	-	2,033,450
Money Market Mutual Funds	1,333,980	-	1,333,980
Local Agency Investment Fund	14,312,956	-	14,312,956
CalTRUST Investment Fund	<u>3,572,800</u>	<u>-</u>	<u>3,572,800</u>
	<u>\$ 25,742,952</u>	<u>\$ 1,008,971</u>	<u>\$ 26,751,923</u>

**Disclosures Relating to Credit Risk**

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of an investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the investment policy, or debt agreements, and the actual rating as of the fiscal year for each investment type.

	Total	Rating as of Fiscal Year End		
		S&P	Moody's	N/A
Local Agency Investment Fund	\$ 14,312,956			Not rated
CalTRUST Short-term Investment Fund	1,719,926	AAf		
CalTRUST Medium Term Investment Fund	1,852,874	A+f		
Certificates of Deposit	5,498,737			Not rated
Corporate Bonds	2,033,450	AAA-AA		
Money Market Mutual Funds	<u>1,333,980</u>	AAAm		
	<u>\$ 26,751,923</u>			

**Concentration of Credit Risk**

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. As of June 30, 2020 there were no investments in any one issuer (other than U.S. Treasury securities, mutual funds and external investment pools) that represent 5% or more of the total District investments.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 2: CASH AND INVESTMENTS (continued)**

**Investment Valuation**

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District does not have any investments that are measured using Level 3 inputs.

The following tables set forth by level, within the fair value hierarchy, the District's assets at fair value as of June 30, 2020.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Certificates of Deposit	\$ -	\$ 5,498,737	\$ -	\$ 5,498,737
Corporate Bonds	-	2,033,450	-	2,033,450
Money Market Mutual Funds	<u>1,333,980</u>	<u>-</u>	<u>-</u>	<u>1,333,980</u>
Total assets at fair value	<u>\$ 1,333,980</u>	<u>\$ 7,532,187</u>	<u>\$ -</u>	<u>\$ 8,866,167</u>

**Investment in State Investment Pool**

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro rata share of the fair value provided by LAIF for the entire portfolio (in relation to the amortized cost of that portfolio).

**NOTE 3: INVESTMENT IN CATTLE**

The following is a summary of the changes in investment in cattle for the year ended June 30, 2020:

Investment in cattle at July 1, 2019	\$ 1,432,329
Activities of cattle operations, for the fiscal year ended June 30, 2020:	
Purchases of cattle	63,591
Additional capital expenditures	584,273
Cost basis for cattle sold	<u>(574,125)</u>
Investment in cattle at June 30, 2020	<u>1,506,068</u>
Accumulated depreciation on investment in cattle at June 30, 2020	<u>(229,328)</u>
Net investment in cattle at June 30, 2020	<u>\$ 1,276,740</u>

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 4: CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2020 is as follows:

	<u>July 1, 2019</u>	<u>Additions</u>	<u>Deletions</u>	<u>Transfers</u>	<u>June 30, 2020</u>
<b>Capital assets not being depreciated</b>					
Land and improvements	\$ 8,467,524	\$ -	\$ -	\$ -	\$ 8,467,524
Work in progress	<u>726,687</u>	<u>33,791</u>	<u>-</u>	<u>(221,638)</u>	<u>538,840</u>
<b>Total capital assets not depreciated</b>	<u>9,194,211</u>	<u>33,791</u>	<u>-</u>	<u>(221,638)</u>	<u>9,006,364</u>
<b>Capital assets being depreciated</b>					
Plant and improvements	53,059,862	72,808	-	-	53,132,670
Collection system and pipelines	56,347,473	5,025,612	-	-	61,373,085
Vehicles	2,278,909	309,959	-	-	2,588,868
Equipment	<u>22,396,834</u>	<u>2,666,406</u>	<u>-</u>	<u>221,638</u>	<u>25,284,878</u>
<b>Total capital assets being depreciated</b>	<u>134,083,078</u>	<u>8,074,785</u>	<u>-</u>	<u>221,638</u>	<u>142,379,501</u>
<b>Less: accumulated depreciation</b>					
Plant and improvements	(12,414,627)	(1,362,307)	-	-	(13,776,934)
Collection system and pipelines	(33,618,683)	(1,330,376)	-	-	(34,949,059)
Vehicles	(2,502,508)	(1,139,975)	-	-	(3,642,483)
Equipment	<u>(10,379,984)</u>	<u>(126,314)</u>	<u>-</u>	<u>-</u>	<u>(10,506,298)</u>
<b>Total accumulated depreciation</b>	<u>(58,915,802)</u>	<u>(3,958,972)</u>	<u>-</u>	<u>-</u>	<u>(62,874,774)</u>
<b>Capital Assets, net</b>	<u>\$ 84,361,487</u>	<u>\$ 4,149,604</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 88,511,091</u>

Depreciation expense for the year ended June 30, 2020 totaled \$4,089,816, and includes \$130,844 in depreciation expense on investment in cattle.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 5: LONG-TERM LIABILITIES**

A summary of long-term liability activity for the year ended June 30, 2020 is as follows:

	<u>July 1, 2019</u>	<u>Additions</u>	<u>Reductions</u>	<u>June 30, 2020</u>	<u>Due within One Year</u>
State Revolving Fund Loan	\$ 38,190,108	\$ -	\$ (2,937,702)	\$ 35,252,406	\$ 2,937,701
Compensated Absences	<u>279,637</u>	<u>264,584</u>	<u>(233,903)</u>	<u>310,318</u>	<u>232,099</u>
Total	<u>\$ 38,469,745</u>	<u>\$ 264,584</u>	<u>\$ (3,171,605)</u>	<u>\$ 35,562,724</u>	<u>\$ 3,169,800</u>

**State Revolving Fund Loan**

The District entered into a project financing agreement with the California State Water Resources Control Board ("Board") under their Clean Water State Revolving Fund Program. The Program provides low-interest loan funding for construction of publicly-owned wastewater treatment facilities. Ironhouse was approved for funding for its Wastewater Treatment Plant Upgrade and Expansion Project. The cost for the Project was \$58,754,020. The loan was disbursed as costs were incurred. Repayment of the loan is paid in annual installments which began October 2012. Full repayment of the loan will be made by October of 2031. The loan bears no interest, however, in order to participate in the zero interest loan program, the District was required to provide 16.667% of the total loan amount. This portion (16.667%) of the loan represents interest costs and is reported on the Statement of Net Position as prepaid interest. Interest expense is amortized over the life of the loan at an effective interest rate of 1.8%. \$497,844 of the prepaid balance was amortized in the current year, resulting in a remaining balance of \$2,987,064 as of June 30, 2020, of which \$459,548 is current. In the event of termination upon written notice at the option of the State Water Board or upon violation of any material provisions of the project financing agreement, the District has agreed to, upon demand, repay the Board all unpaid installment payments in full. In the event of termination, interest shall accrue on all amounts due at the highest legal rate of interest from the date of notice to date of full repayment.

Debt service requirements for the State Revolving Fund Loan are as follows:

<u>For the Year Ending, June 30</u>	<u>Principal</u>	<u>Total Payments</u>	<u>Interest Expense</u>
2021	\$ 2,937,701	\$ 2,937,701	\$ 459,548
2022	2,937,701	2,937,701	421,253
2023	2,937,701	2,937,701	382,957
2024	2,937,701	2,937,701	344,661
2025	2,937,701	2,937,701	306,366
2026 - 2030	14,688,505	14,688,505	957,392
2031 - 2032	<u>5,875,396</u>	<u>5,875,396</u>	<u>114,887</u>
Total	<u>\$ 35,252,406</u>	<u>\$ 35,252,406</u>	<u>\$ 2,987,064</u>

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 6: CAPACITY FEES AND UNEARNED REVENUES**

Capacity fees and trunkline capacity fees are charged to each individual and business as they are hooked up to the sewer lines in either the City of Oakley or the unincorporated area of Bethel Island.

The capacity fees and trunkline capacity fees are to be used exclusively for future capacity expansion of the plant or infrastructure. They are not intended to be used for the normal operating expenses of the District. As of June 30, 2020, \$4,878,121 had been earned and designated for future expansion. During the year ended June 30, 2020, \$1,839,709 of capacity and trunkline capacity fees were earned.

As of June 30, 2020, the District had accrued \$22,742 in unearned revenue as a result of cash received but not earned. This balance will be recognized in future periods once the District has met its obligations.

**NOTE 7: DEFINED BENEFIT PENSION PLAN**

**A. General Information about the Pension Plan**

**Plan Description** – All qualified permanent and probationary employees are eligible to participate in the District’s Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan), administered by the California Public Employees’ Retirement System (CalPERS). The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all others). Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety and miscellaneous pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the safety or miscellaneous pools. The District sponsors two rate plans (both miscellaneous). Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

**Benefits Provided** – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the Plan are applied as specified by the Public Employees’ Retirement Law.

The Plan’s provisions and benefits in effect at June 30, 2020, are summarized as follows:

	Miscellaneous Plan	
	Hired prior to January 1, 2013	Hired on or after January 1, 2013
Benefit Formula	2.7% @ 55	2% @ 62
Benefit Vesting Schedule	5 years service	5 years service
Benefit Payments	Monthly for life	Monthly for life
Retirement age	50-55	52-67
Monthly Benefits, as a % of Eligible Compensation	2.0% to 2.7%	1.0% to 2.5%
Required Employee Contribution Rate	8.0%	6.5%
Required Employer Contribution Rate	24.01%	7.98%

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 7: DEFINED BENEFIT PENSION PLAN (continued)**

**Contributions** – Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The District’s contributions to the Plan for the year ended June 30, 2020 were \$619,790.

**B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions**

As of June 30, 2020, the District reported a net pension liability of \$4,416,938 for its proportionate shares of the net pension liability of the Plan.

The District’s net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2019, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District’s proportion of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District’s proportionate share of the net pension liability for the Plan as of June 30, 2019 and 2020 was as follows:

	Total
Proportion - June 30, 2019	0.04314 %
Proportion - June 30, 2020	0.04310 %
Change - Increase (Decrease)	(0.00004)%

For the year ended June 30, 2020, the District recognized pension expense of \$1,072,712. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Pension contributions subsequent to measurement date	\$ 619,790	\$ -
Differences between projected and actual experience	306,775	23,769
Changes in assumptions	210,620	74,663
Difference between actual contributions made by employer and the employer’s proportionate share of the risk pool’s total contribution	35,855	69,903
Adjustment due to differences in proportions	54,412	23,308
Net difference between projected and actual earnings on plan investments	-	77,222
Total	\$ 1,227,452	\$ 268,865

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 7: DEFINED BENEFIT PENSION PLAN (continued)**

\$619,790 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal period. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Fiscal Year Ended June 30,		
2021	\$	364,986
2022		(58,265)
2023		16,473
2024		15,603

**C. Actuarial Assumptions** – The total pension liabilities in the June 30, 2018 actuarial valuations were determined using the following actuarial assumptions:

	Miscellaneous
Valuation Date	June 30, 2018
Measurement Date	June 30, 2019
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.15% net of pension plan investment expenses, includes inflation
Mortality (1)	Derived Using CalPERS membership data for all funds
Post Retirement Benefit Increase	Contract COLA up to 2.50% until purchasing power protection allowance floor on purchasing power applies, 2.50% thereafter

(1) The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90 percent of scale MP 2016. For more information on this table, please refer to the 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the fiscal years 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

**Change in Assumptions**

In December 2017, the CalPERS Board adopted new mortality assumptions for plan participants participating in the PERF. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75 percent to 2.50 percent. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00 percent to 2.75 percent.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 7: DEFINED BENEFIT PENSION PLAN (continued)**

**D. Discount Rate** – The discount rate used to measure the total pension liability was 7.15% for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees' Retirement Fund (PERF). The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained from the CalPERS website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund (Public Employees' Retirement Fund) cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Real Return Years 1 - 10(a)</u>	<u>Real Return Years 11+(b)</u>
Global Equity	50.0%	4.80%	5.98%
Global Fixed Income	28.0%	1.00%	2.62%
Inflation Sensitive	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	(0.92)%

(a) An expected inflation of 2.00% used for this period.

(b) An expected inflation of 2.92% used for this period.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 7: DEFINED BENEFIT PENSION PLAN (continued)**

***Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*** – The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	<b>Miscellaneous</b>
1% Decrease Net Pension Liability	6.15% \$7,031,799
Current Discount Rate Net Pension Liability	7.15% \$4,416,938
1% Increase Net Pension Liability	8.15% \$2,258,554

***Pension Plan Fiduciary Net Position*** – Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

**NOTE 8: DEFERRED COMPENSATION PLAN**

During the fiscal year ended June 30, 1997 the District approved and established the Ironhouse Sanitary District Deferred Compensation Plan ("the deferred compensation plan") for its employees created in accordance with Internal Revenue Code 457. The deferred compensation plan, administered by Mass Mutual Financial Group and available to all permanent employees and Directors, permits them to defer a portion of their current salary until future years. The deferred compensation, which is held in trust by Mass Mutual, is not available to participants until termination, retirement, death or unforeseeable emergency. During the year ending June 30, 2020, the employees contributed \$36,340.

**NOTE 9: POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS**

***Description of Plan***

The District's defined benefit healthcare plan, Ironhouse Sanitary District Retiree Healthcare Plan (the Healthcare Plan), provides health insurance benefits to participants and beneficiaries. The Healthcare Plan is part of the California Employers' Retiree Benefit Trust (CERBT), an agent multiple-employer plan administered by the California Public Employees Retirement System (CalPERS), which acts as a common investment and administrative agent for participating entities within the state of California. Benefit provisions and all other requirements are established by state statute and the District. CalPERS issues a separate comprehensive annual financial report. Copies of CalPERS' annual financial report may be obtained from the CalPERS Executive Office at 400 "P" Street, Sacramento, California 95814.

Under the plan service or disability, retirees for all employees hired before August 1, 2006 and all employees with 20 years of District service hired after August 1, 2006 are eligible to receive post-retirement health insurance benefits. Participants do not contribute to the Healthcare Plan.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 9: POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)**

***Employees covered***

As of the June 30, 2019 actuarial valuation, the following current and former employees were covered by the benefit terms under the plan.

Active employees	27
Inactive employees currently receiving benefits	<u>27</u>
 Total	 <u><u>54</u></u>

***Contributions***

The District's policy is to fully fund the actuarially determined contribution. The District makes the contributions on behalf of the participants. For the fiscal year ended June 30, 2020, the District contributed \$337,495.

***Net OPEB Liability***

The District's net OPEB liability ("NOL") was measured as of June 30, 2019 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2019 based on the following actuarial methods and assumptions.

Discount Rate	7.00 %	
Inflation	2.75 %	
Salary increases per annum	2.75 %	
Investment Rate of Return	7.00 %	
Healthcare Trend Rate	4.00 %	
Mortality rates

All participants		Hired before 9/1/06: 100% at 5 Years of Service Hired after 8/31/06: Government Code Section 22893

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 9: POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)**

***Discount Rate***

The discount rate used to measure the total OPEB liability was 7.00% based on an assumption that contributions would be sufficient to fully fund the obligation over a period not to exceed 30 years. The discount rate was derived using historic 28 year real rates of return for each asset class along with an assumption of long-term inflation offset by expected investment expenses of 25 basis points.

***Asset Allocation and Assumed Rate of Return***

The assumed gross return was determined using rolling periods of time for all asset class combinations to appropriately reflect correlation between asset classes. The assumed gross rate of return is based on a geometric mean not an arithmetic mean. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table.

<u>Asset Class</u>	<u>Percentage of Portfolio</u>	<u>Assumed Gross Return</u>
US Large Cap	43.0 %	7.7950 %
US Small Cap	23.0 %	7.7950 %
Long-term corporate bonds	12.0 %	5.2950 %
Long-term government bonds	6.0 %	4.5000 %
Treasury Inflation Protected Securities (TIPS)	5.0 %	7.7950 %
US real estate	8.0 %	7.7950 %
All commodities	3.0 %	7.7950 %
	<u>100.0 %</u>	

***Changes in the OPEB liability***

To determine the June 30, 2019 (measurement period) net OPEB liability, the District used a "roll-forward" technique for the total OPEB liability. The fiduciary net position is based on the actual June 30, 2019 fiduciary net position. The following table shows the results of the roll-forward.

	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (Asset) (c) = (a) - (b)
Balance at June 30, 2018	\$ 4,081,762	\$ 2,494,138	\$ 1,587,624
Service cost	91,604	-	91,604
Interest on TOL	279,830	-	279,830
Employer contributions	-	319,383	(319,383)
Expected investment income	-	175,441	(175,441)
Investment gains/losses	-	(21,068)	21,068
Administrative expense	-	(534)	534
Expected benefit payments	(259,975)	(294,535)	34,560
Experience Gains/Losses	<u>(119,538)</u>	<u>-</u>	<u>(119,538)</u>
Net change during 2018-19	<u>(8,079)</u>	<u>178,687</u>	<u>(186,766)</u>
Balance at June 30, 2019	<u>\$ 4,073,683</u>	<u>\$ 2,672,825</u>	<u>\$ 1,400,858</u>

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 9: POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)**

***Sensitivity of the Net OPEB Liability to Changes in the Discount Rate***

The following represents the net OPEB liability of the District if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate, for measurement period ended June 30, 2019:

	1% Decrease 6.00%	Current Discount Rate 7.00%	1% Increase 8.00%
Net OPEB Liability	<u>\$ 1,852,886</u>	<u>\$ 1,400,858</u>	<u>\$ 1,021,436</u>

***Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates***

The following represents the net OPEB liability of the District if it were calculated using health care cost trend rates that are one percentage-point lower or one percentage-point higher than the current rate, for measurement period ended June 30, 2019:

	1% Decrease 3.00%	Current Healthcare Cost Trend Rate 4.00%	1% Increase 5.00%
Net OPEB Liability	<u>\$ 1,013,431</u>	<u>\$ 1,400,858</u>	<u>\$ 1,850,872</u>

***Recognition of Deferred Outflows and Deferred Inflows of Resources***

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time.

Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on OPEB plan investments      5 year straight-line recognition

All other amounts      Straight-line recognition over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits, determined as of the beginning of the Measurement Period. In determining the EARSL, all active, retired and inactive (vested) members are counted, with the latter two groups having 0 remaining service year.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 9: POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)**

***OPEB Expenses and Deferred Outflows/Inflows of Resources Related to OPEB***

For the fiscal year ended June 30, 2020, the District recognized OPEB expense of \$220,889. As of fiscal year ended June 30, 2020, the District reported deferred outflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
OPEB contributions subsequent to measurement date	\$ 337,495	\$ -
Net differences between projected and actual earnings on investments	17,160	-
Differences between expected and actual experience	-	75,096
Total	\$ 354,655	\$ 75,096

\$337,495 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent fiscal period. Other amounts reported as deferred outflows of resources related to OPEB will be recognized as follows:

For the Fiscal Year Ending June 30,	Recognized Net Deferred Outflows (Inflows) of Resources
2020	\$ (5,592)
2021	\$ (5,592)
2022	\$ (5,592)
2023	\$ (5,592)
2024	\$ (9,882)
Thereafter	\$ (25,686)

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 10: JOINT VENTURE - CALIFORNIA SANITATION RISK MANAGEMENT DISTRICT (CSRMA)**

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control in which the participants retain (a) an ongoing financial interest or (b) an on-going financial responsibility.

The District participates in a joint venture under a joint powers agreement (JPA) with the California Sanitation Risk Management District (CSRMA). CSRMA was formed to provide common risk management and loss prevention programs related to public liability, auto liability, public official's errors and omissions, property loss and workers' compensation risk for member governmental agencies. CSRMA is not a component unit of the District for financial reporting purposes but the District does retain an on-going financial responsibility in CSRMA. During the year ended June 30, 2020, the District made \$249,365 in insurance premium payments to CSRMA.

Condensed audited financial information for the year ended June 30, 2019 (the most recent available) was as follows:

Total assets	\$ 26,991,334
Total liabilities	<u>20,588,497</u>
 Total net position	 <u>\$ 6,402,837</u>
 Total revenues	 \$ 12,068,611
Total expenses	<u>14,577,244</u>
 Decrease in net position	 <u>\$ 1,302,913</u>

Complete financial statements for CSRMA can be obtained from the CSRMA, care of Alliant Insurance Services, Inc., 100 Pine Street, 11th floor, San Francisco, California, 94111.

**NOTE 11: RELATED PARTY TRANSACTIONS**

The General Manager, Assistant General Manager and Reclamation Superintendent of the District are also the President, Treasurer and Secretary of Reclamation District No. 830 (RD830). RD830 was established to maintain the integrity of the levee system on Jersey Island which is wholly owned by the District. During the year ended June 30, 2020, the District paid \$332,565 in assessments to RD830. In addition, RD830 reimbursed the District in the amount of \$107,171 for levee repairs performed by Ironhouse employees and for the use of its equipment. As of June 30, 2020, \$23,834 was due from RD830 and is reported as a current receivable. Management believes these transactions were consummated on terms equivalent to those that prevail in arms length transactions.

In 2018, the District agreed to loan the District's General Manager \$72,961 for the repayment of a student loan. As long as the General Manager remains an employee of the District, one-fifth of the loan will be forgiven beginning on July 17, 2019 and each subsequent year thereafter until July 17, 2023 at which time the loan will be completely forgiven. Upon the General Manager's termination prior to July 17, 2023, the unforgiven loan balance may be subject to repayment by the General Manager, without interest, depending upon the reason for termination as outlined in the General Manager's Employment Agreement dated July 17, 2018. As of June 30, 2020, \$11,674 is reported as a current receivable, and \$46,695 is reported as a long-term receivable.

**IRONHOUSE SANITARY DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED  
JUNE 30, 2020**

**NOTE 12: NET POSITION**

As of June 30, 2020, net position of the District consisted of the following:

Net investment in capital assets	\$ 56,245,748
Unrestricted:	
Undesignated	5,548,264
Designated reserve for capital expenditures	11,021,610
Designated reserve for rate stabilization	732,000
Designated reserve for Jersey Island use fees	<u>35,488</u>
Total Unrestricted	<u>17,337,362</u>
Restricted:	
Debt service	2,937,701
Expansion	404,786
Trunkline capacity	<u>4,473,335</u>
Total Restricted	<u>7,815,822</u>
Total Net Position	<u>\$ 81,398,932</u>

**NOTE 13: VOTER LEGISLATION**

Proposition 218, which was approved by voters in November 1996, regulates the District's ability to impose, increase, and extend assessments and fees. Any new, increased, or extended assessments and fees subject to the provisions of Proposition 218 require voter approval before they can be implemented. The District's Board of Directors approved a five-year rate plan to implement planned service fee increases beginning in fiscal year 2020-2021 to fund operations and capital improvements. In the current year, the District satisfied all necessary criteria required by Proposition 218 prior to obtaining Board approval.

Proportionate share of the net pension liability as a percentage of covered payroll	163.54 %	172.03 %	190.05 %	152.10 %	122.64 %	106.08 %
Plan fiduciary net position as a percentage of the total pension liability	77.23 %	75.39 %	73.31 %	74.06 %	78.40 %	79.82 %

**Notes to Schedule:**

Changes in assumptions

For the measurement period June 30, 2018, the CalPERS Board adopted new mortality assumptions for plan participants participating in the PERF. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75 percent to 2.50 percent. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00 percent to 2.75 percent.

For the measurement period ended June 30, 2017, the accounting discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, the discount rate remained at 7.65 percent. In 2015, amounts reported reflect an adjustment of the discount rate from 7.50 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expenses). In 2014, amounts reported were based on the 7.50 percent discount rate.

\* Schedule is intended to show information for ten years. Fiscal year 2015 was the first year of implementation, therefore only six years are shown. Additional years' information will be displayed as it becomes available.
